## OBJECTIVE

---

Biomedical Engineering Undergrad at Yildiz Technical University, seeking full-time Data Scientist, Machine/Deep Learning Engineer roles.

## EDUCATION

---

**Bachelor of Biomedical Engineering**, Yildiz Technical University

2019 - 2024

*Graduation Thesis: Investigating Deep Learning Techniques for Breast Cancer Histopathological Image Classification*

## SKILLS

---

Technical Skills	Python, C/C++, MATLAB
Technologies	TensorFlow, PyTorch
Tools	SQL, GIT, Docker
Platforms	Linux
Soft Skills	Adaptability, Analytical Thinking, Creativity, Time Management

## EXPERIENCE

---

**Google Developers Machine Learning Bootcamp 2022**

July 2022 – December 2022

Alumni

- Collab by inzva AI Community and Google Developers Team.
- Participated in weekly discussion sessions focused on completing Coursera courses.
- Earned a certificate in TensorFlow after successfully passing the related exam.

**Project Intern**

July 2022 – August 2022

FSMVU BETAM (Biomedical Electronical Design and Development Center)

- Worked on a medical device tracking system for hospitals in the university research lab.
- Used LoRaWAN IoT Technology Module.

## COURSES CERTIFICATES

---

- TensorFlow Developer Certificate [link](#)
- Deep Learning Specialization, Coursera [certificate](#)
- Machine Learning Specialization, Coursera [certificate](#)
- Tensorflow Developer Specialization, Coursera [certificate](#)
- Natural Language Processing Specialization, Coursera - ongoing
- Machine Learning, Udemy [certificate](#)

## LANGUAGES

---

- Turkish (Native)
- English (Fluent)
- Chinese (Basic)
